New era for football club starts with demolition job

THE start of a new era for Seaview Football Club was marked by former players.

By Richard Wright

richardw@iwcpmail.co.uk

Team members who played when the old clubhouse was built turned up to start work knocking down the dilapidated building.

Trevor, Keith and Barry Allen, Chris Norman and Melvin Ansell took a sledgehammer to the old changing rooms to mark the start of demolition work.

Cllr Reg Barry, who is a trustee, said: "It was the first day in the long-awaited, and sometimes frustrating, journey towards achieving the much-needed sports and community facilities for Seaview and Nettlestone."

He said businesses and individuals raised the money for some of the work on the new Seagrove Community Sports Pavilion, due to be completed in summer.

"Thanks to the support of the community, we will have a fit-for-purpose pavilion," Cllr Barry added.

Grants totalling £100,000 came from Sport England and Biffa Award, which was matched by community organisations and individuals and Seaview FC fundraising.

The pavilion, which has taken ten years to become a reality, is designed to be a community meeting place.

It will be the new home of Seaview FC and the 1st Seaview guides, brownies and rainbows.

Melvin Ansell starts the demolition, watched by others clutching sledgehammers. 0313-R44707
